- Concepts and definitions

Data are the result of statistical data processing collected through the Annual Report on Kindergartens and Other Legal Entities Implementing Preschool Education Programmes (DV-PO form) from self-contained kindergartens, kindergartens with departments, departments and other legal entities (basic schools, playrooms in libraries and other health, social, sports and cultural institutions and organisations implementing preschool education programmes) in the Republic of Croatia active in the 2010/2011 pedagogic year, and refer to 31 October 2010. Definitions of preschool education and care programmes intended for preschool children are implemented in nursery and kindergarten groups in kindergarten, irrespective of the founder, and can be classified as follows: regular programmes, preschool programme and shorter programmes. Preschool education programmes (not kindergartens) in other legal entities are realised in basic schools, in health institutions caring for children with developmental difficulties, in social institutions caring for children with developmental difficulties, as playrooms in libraries, shorter programmes in cultural institutions and shorter programmes in different organisations. All preschool education programmes must be verified by the Ministry of Science, Education and Sports; they are organised as constitutional units of the legal entities in question and fulfil all conditions required for work with preschool children. Kindergartens are public institutions that provide preschool education as a public service. Kindergarten can be established by the Republic of Croatia and local government units (state-owned kindergarten), religious communities (kindergartens established by religious communities) and other domestic legal entities and natural persons (private kindergartens). Departments are dislocated parts of a central kindergarten, which include one or more education groups established by kindergartens as required.

Preschool upbringing in kindergartens covers children of six months of age until school age. Preschool education conducted in kindergartens and other legal entities for children over three years of age in the Republic of Croatia corresponds to the level 0 of the National Standard Classification of Education (NSKO) and the International Standard Classification of Education (ISCED 97). Preschool programme provides for children aged six years who do not attend a regular preschool education programme as a preparation for school. Shorter programmes include various contents (foreign languages, religious education, sport groups, dancing, musical or art classes etc.), which children attend for few hours per week or month.

The survey results can be checked on the website of the Croatian Bureau of Statistics <https://dzs.gov.hr/highlighted-themes/quality/user-satisfactionsurveys/686>

1.2. Completeness

The survey has been conducted in the Croatian Bureau of Statistics and it is harmonised with the national legislation.

1.2.1. Data completeness rate

The indicator is not computed.

2. Accuracy and reliability

2.1. Sampling error

Not applicable (the survey is not based on the sample).

2.1.1. Sampling error indicators

The indicator is not applicable.

2.2. Non-sampling error

Not applicable.

2.2.1. Coverage error

Not applicable.

2.2.2. Over-coverage rate

The indicator is not applicable.

2.2.3. Measurement errors

A treatment includes data verification, while errors that emerged are checked by phone with reporting units before correction.

2.2.4. Non-response errors

Reporting units are contacted by phone when necessary.

2.2.5. Unit non-response rate

The indicator is not applicable.

2.2.6. Item non-response rate

The indicator is not applicable.

2.2.7. Processing errors

Data that have been incorrectly entered either by the reporting unit or during data processing are verified and corrected (if necessary).

2.2.8. Imputation rate

The indicator is not applicable.

2.2.9. Model assumption error

Not applicable.

2.3. Data revision

2.3.1. Data revision – policy

The users of statistical data are informed about revision (preliminary, final data) on the website of the Croatian Bureau of Statistics.

2.3.2. Data revision – practice

Provisional figures are not published in this survey and therefore regular revisions are not planned.

2.3.3. Data revision – average size

The indicator is not applicable.

2.4. Seasonal adjustment

Not applicable.

3. Timeliness and punctuality

3.1. Timeliness

April for a current pedagogic year: T + 6

3.1.1. Timeliness – first results

The indicator is not applicable.

3.1.2. Timeliness – final results

Time lag of final results is: T + 6.

3.2. Punctuality

Data are released on time according to the Calendar of Statistical Data Issues.

5. Coherence and comparability

5.1. Asymmetry for mirror flows statistics

Not applicable.

5.2. Comparability over time

Data are comparable to those from previous years.

5.2.1. Length of comparable time series

The indicator is not applicable.

5.2.2. Reasons for break in time series

There is no break in time series.

5.3. Coherence – short-term and structural data

The indicator is not computed.

5.4. Coherence – national accounts

The indicator is not computed.

5.5. Coherence – administrative sources

The indicator is not computed.

6. Cost and burden

6.1. Cost

Costs are associated with data production through material costs and employees' incomes (earnings etc.).

6.2. Burden

The burden with this survey is minimal.
