

QUALITY REPORT FOR STATISTICAL SURVEY

Annual Report on Freshwater Fishing for 2024.

Organisational unit: Ministry of Agriculture, Forestry and Fisheries – Directorate of Fisheries

Prepared by: Josip Furčić and Mirta Novak

April 2025

0. Basic information

- Purpose and subject of the survey

The survey collects data from licence holders on freshwater fisheries and licences for commercial freshwater fisheries. The obtained data allow for an insight into the volume of freshwater catch by types and by rivers Sava and Danube.

- Reference period

Calendar year

- Legal acts and other agreements

Freshwater Fisheries Act (NN, No. 63/19)

Official Statistics Act (NN, Nos 25/20 and 155/23)

- Classification system

[Decision on the Classification of Products by Activity of the Republic of Croatia KPD 2015 – KPD 2015 \(NN, No. 157/14\)](#)

Decision on the National Classification of Activities 2007 – NKD 2007 (NN, Nos [58/07.](#) and [72/07.](#))

- Statistical concepts and definitions

The statistical survey includes:

- holders of the freshwater commercial fisheries licence.

- Statistical unit

Reporting units are legal entities and natural persons who engage in freshwater commercial fisheries and the first sale of fishery products.

- Statistical population

Legal entities and natural persons who engage in freshwater commercial fisheries and the first sale of fishery products

1. Relevance

1.1. Data users

Eurostat – landings and sale of fishery products

FAO – catch and landings of fishery products

OECD – fishery statistics

GFCM – fishery statistics

EC – fishery statistics

EUMOFA – sale of fishery products

1.1.1. User needs

The indicator is not applicable.

1.1.2. User satisfaction

The indicator is not applicable.

1.2. Completeness

Data coverage is 100%.

1.2.1. Data completeness rate

The indicator is not applicable.

2. Accuracy and reliability

2.1. Sampling error

The indicator is not applicable.

2.1.1. Sampling error indicators

The indicator is not applicable.

2.2. Non-sampling error

The indicator is not applicable.

2.2.1. Coverage error

The indicator is not applicable.

2.2.2. Over-coverage rate

The indicator is not applicable.

2.2.3. Measurement errors

The indicator is not applicable.

2.2.4. Non-response errors

The indicator is not applicable.

2.2.5. Unit non-response rate

The indicator is not applicable.

2.2.6. Item non-response rate

The indicator is not applicable.

2.2.7. Processing errors

The indicator is not applicable.

2.2.8. Imputation rate

The indicator is not applicable.

2.2.9. Model assumption error

The indicator is not applicable.

2.3. Data revision

2.3.1. Data revision – policy

The users of statistical data will be informed about revisions (preliminary data, final data) on the website of the Directorate of Fisheries.

2.3.2. Data revision – practice

The users of statistical data will be informed about revisions (preliminary data, final data) on the website of the Directorate of Fisheries.

2.3.3. Data revision – average size

The indicator is not applicable.

2.4. Seasonal adjustment

The indicator is not applicable.

3. Timeliness and punctuality

3.1. Timeliness

Six months for publishing preliminary data

Twelve months for publishing final data

3.1.1. Timeliness – first results

The indicator is not applicable.

3.1.2. Timeliness – final results

The indicator is not applicable.

3.2. Punctuality

100%

3.2.1. Punctuality – delivery and publication

The indicator is not applicable.

4. Accessibility and clarity

Data are publicly available in electronic form.

4.1. News releases

Regular First Releases in which data are published

4.2. Online database

The indicator is not applicable.

4.3. Microdata access

The indicator is not applicable.

4.4. Documentation on methodology

Documentation is available on the website of the Directorate of Fisheries.

5. Coherence and comparability

5.1. Asymmetry for mirror flow statistics

The indicator is not applicable.

5.2. Comparability over time

The indicator is not applicable.

5.2.1. Length of comparable time series

The indicator is not applicable.

5.2.2. Reasons for break in time series

The indicator is not applicable.

5.3. Coherence – short-term and structural data

The indicator is not applicable.

5.4. Coherence – national accounts

The indicator is not applicable.

5.5. Coherence – administrative sources

The indicator is not applicable.

6. Cost and burden

6.1. Cost

Costs are minimal because data are collected electronically.

6.2. Burden

Burden is minimal because data are collected electronically.
