1. Relevance

1.1 Data users

External or national users of the data are ministries and other state administration bodies, the media and the public. International users of the data are the Statistical Office of the European Union (Eurostat), the European Tertiary Education Register (ETER) and the Organisation for Economic Co-operation and Development (OECD)

1.1.1 User needs

External users, in most cases, request more detailed data than those published.

1.1.2 User satisfaction

The first user satisfaction survey of the Croatian Bureau of Statistics was conducted in 2013, then in 2015 and 2022, and the last one at the end of 2024. The results of the satisfaction survey can be checked on the website of the Croatian Bureau of Statistics – [User satisfaction surveys](#).

1.2. Completeness

Data collected in survey are fully compatible with Eurostat regulations and guidelines.

1.2.1 Data completeness rate

The data completeness rate is 0%. Statistical data meet current and potential user needs.

2. Accuracy and reliability

2.1. Sampling error

Indicator is not applicable (the survey is not sample based).

2.1.1 Sampling error indicators

Indicator is not applicable.

2.2. Non-sampling error

Indicator is not applicable.

2.2.1. Coverage error

Indicator is not applicable.

2.2.2. Over-coverage rate

Indicator is not applicable.

2.2.3. Measurement error

Treatment includes logical and arithmetical control, and the resulting errors are verified by phone with the reporting units before correction.

2.2.4. Non-response error

In case there is no response, or an additional explanation is needed, the reporting units are contacted by phone when necessary.

2.2.5. Unit non-response rate

Unweighted non-response rate is 0%. The survey does not have a non-response rate because in case of incomplete data the reporting units are contacted.

Weighted non-response rate is: -

2.2.6. Item non-response rate

Indicator is not applicable.

2.2.7. Processing error

An erroneous figure entered, either by the reporting unit or during the data processing, goes through logical and arithmetical control and is checked and, if necessary, corrected.

2.2.8. Imputation rate

Indicator is not applicable.

2.2.9. Model assumption error

Indicator is not applicable.

2.3. Data revision

2.3.1. Data revision – policy

On the website of the Central Bureau of Statistics, users of statistical data are informed about audits – [General Revision Policy of the CBS](#).

2.3.2. Data revision – practice

Provisional data are not published in this survey and therefore there are no data revisions.

2.3.3. Data revision – average size

Indicator is not applicable.

2.4. Seasonal adjustment

Indicator is not applicable.

3. Timeliness and Punctuality

3.1. Timeliness

April for the last calendar year.

3.1.1. Time lag – first results

Time lag – first results is: T + 1. The First Release is published 15 days after the end of processing.

3.1.2. Time lag – final results

Time lag – final results is: T + 1

3.2. Punctuality

All planned Releases were published on time according to the Calendar of Statistical Data Issues.

3.2.1. Punctuality – delivery and publication

Delivery and publication are 1.

4. Accessibility and clarity

The data are available to users in both printed and electronic form through the Statistical Report, and on the website of the Croatian Bureau of Statistics through First Releases and publications such as Towns in Statistics, Croatia in Figures, Women and Men in Croatia, and Statistical Information.

4.1. News release

[OBR-2026-4-3 University Specialists, 2025](#)

4.2. On-line database

There is no online database.

4.3. Micro-data access

Conditions under which certain users can have access to microdata are regulated by the [Ordinance on Conditions and Terms of Access and Use of Confidential Statistical Data of the Croatian Bureau of Statistics for Scientific Purposes](#) (NN, No. 5/23).

4.4. Documentation on methodology

Methodological documents are available in the First Release OBR-2026-4-3 “University Specialist in 2025” and Statistical Report “Higher Education in 2025” in paper form and in electronic version, also is available in electronic version on the website of the Croatian Bureau of Statistics.

5. Comparability over time

5.1. Asymmetry for mirror flows statistics

Indicator is not applicable.

5.2. Comparability - over time

Data are comparable to those from previous years.

5.2.1. Length of comparable time series

Indicator is not applicable.

5.2.2. Reasons for break in time series

There are no breaks in time series.

5.3. Coherence – subannual and annual statistics

Indicator is not applicable.

5.4. Coherence – national accounts

Indicator is not applicable.

5.5. Coherence – administrative sources

Indicator is not applicable.

6. Cost and burden

6.1. Cost

The costs are associated with the data production through material costs and employees' incomes (earnings etc.).

6.2. Burden

The burden on reporting units by this survey has been reduced to a minimum, both for students and for administration.
