QUALITY REPORT FOR STATISTICAL SURVEY

Annual Report of Apparent Consumption of Fisheries and Aquaculture Products for 2025

Organisation unit: Ministry of Agriculture, Forestry and Fisheries – Directorate of Fisheries
Prepared by: Josip Furčić, Mirta Novak

April 2026

0. Basic information

- Purpose, goal, and subject of the survey

The survey collects data used to estimate the apparent consumption of fishery and aquaculture products per capita. The resulting data on available (net) supply and apparent consumption of fishery and aquaculture products are presented according to categories of commodity groups, i.e. products in fresh or chilled condition and products in finished or processed form.

- Reference period

Calendar Year

- Legal acts and other agreements

Marine Fisheries Act (NN, Nos 62/17, 130/17, 14/19, 30/23 and 14/24)

Aquaculture Act (NN, Nos 130/17, 111/18, 144/20, 30/23 and 14/24)

Freshwater Fisheries Act (NN, No. 63/19)

Official Statistics Act (NN, Nos 25/20, 155/23 and 124/25 – corr.)

- Classification system

Decision on the Classification of Products by Activity of the Republic of Croatia 2025 – KPD 2025 (NN, No. 151/24)

Decision on the National Classification of Activities 2025 – NKD 2025 (NN, No. 47/24)

- Statistical concepts and definitions

The statistical survey includes:

- holders of the marine commercial fisheries licence
- aquaculture operation permit holders
- landings in fisheries (commercial, recreational, sport)
- production in aquaculture
- import and export of fishery products
- processing of fishery products
- number of inhabitants of the Republic of Croatia
- number of nights of foreign tourists.

- Statistical units

Reporting units are legal entities and natural persons who engage in marine and freshwater commercial fisheries and are aquaculture operation permit holders. Buyers of licences for sport and recreational fisheries, processors and retailers are also included.

- Statistical population

Legal entities and natural persons who engage in marine and freshwater commercial fisheries and are aquaculture operation permit holders. Buyers of licences for sport and recreational fisheries, processors and retailers are also included.

1. Relevance

1.1 Data users

EUROSTAT – landings and sale of fishery products

FAO – catch and landings of fishery products

OECD – fishery statistics

GFCM – fishery statistics

EC – fishery statistics

EUMOFA – sale of fishery products

1.1.1 User needs

The indicator is not applicable.

1.1.2 User satisfaction

The indicator is not applicable.

1.2. Completeness

Data coverage is 100%.

1.2.1 Data completeness rate

The indicator is not applicable.

2. Accuracy and reliability

2.1. Sampling error

The indicator is not applicable.

2.1.1 Sampling error indicators

The indicator is not applicable.

2.2. Non-sampling error

The indicator is not applicable.

2.2.1. Coverage error

The indicator is not applicable.

2.2.2. Over-coverage rate

The indicator is not applicable.

2.2.3. Measurement error

The indicator is not applicable.

2.2.4. Non-response error

The indicator is not applicable.

2.2.5. Unit non-response rate

The indicator is not applicable.

2.2.6. Item non-response rate

The indicator is not applicable.

2.2.7. Processing error

The indicator is not applicable.

2.2.8. Imputation rate

The indicator is not applicable.

2.2.9. Model assumption error

The indicator is not applicable.

2.3. Data revision

2.3.1. Data revision – policy

The users of statistical data will be informed about revisions (preliminary data, final data) on the website of the Directorate of Fisheries.

2.3.2. Data revision – practice

The users of statistical data will be informed about revisions (preliminary data, final data) on the website of the Directorate of Fisheries.

2.3.3. Data revision – average size

The indicator for this survey is not applicable.

2.4. Seasonal adjustment

The indicator is not applicable.

3. Timeliness and Punctuality

3.1. Timeliness

Twelve months for publishing final data

3.1.1. Time lag – first results

The indicator is not applicable.

3.1.2. Time lag – final results

The indicator is not applicable.

3.2. Punctuality

100%

3.2.1. Punctuality – delivery and publication

The indicator is not applicable.

4. Accessibility and clarity

Data are publicly available in electronic form.

4.1. News release

Regular First Releases in which data are published.

4.2. On-line database

The indicator is not applicable.

4.3. Micro-data access

The indicator is not applicable.

4.4. Documentation on methodology

Documentation is available on the website of the Directorate of Fisheries.

5. Comparability over time

5.1. Asymmetry for mirror flows statistics

The indicator is not applicable.

5.2. Comparability - over time

The indicator is not applicable.

5.2.1. Length of comparable time series

The indicator is not applicable.

5.2.2. Reasons for break in time series

The indicator is not applicable.

5.3. Coherence – subannual and annual statistics

The indicator is not applicable.

5.4. Coherence – national accounts

The indicator is not applicable.

5.5. Coherence – administrative sources

The indicator is not applicable.

6. Cost and burden

6.1. Cost

Costs are minimal because data are collected electronically.

6.2. Burden

Burden is minimal because data are collected electronically.
