CROATIAN BUREAU OF STATISTICS

QUALITY REPORT FOR STATISTICAL SURVEY

UOE (UNESCO/OECD/Eurostat) Questionnaire on Education

For 2010

Organisational unit: Education, Culture and Information
Society Statistics Department

Prepared by: Marija Gojević, Ana Šojat i Vedran Osonjački

November 2020

0. Basic information

- Purpose, goal, and subject of the survey

The UOE Questionnaire is filled in by data collected through the statistical survey of the formal education system of the Republic of Croatia. The national education system consists of the primary, secondary and tertiary education.

- Reference period

Calendar year

- Legal acts and other agreements

Regulation (EC) No 452/2008 of the European Parliament and of the Council of 23 April 2008 concerning the production and development of statistics on education and lifelong learning

- Classification system

Data are classified in accordance with the ISCED classification system.

- Concepts and definitions

Statistical data and definitions are available in national publications on formal education at all ISCED levels on the website of the Croatian Bureau of Statistics www.dzs.hr.

- Statistical units

Statistical units are educational institutions in the Republic of Croatia.

- Statistical population

Data collected by the statistical survey of education are used for the UOE Questionnaire. The coverage is full, that is, all formal education institutions are covered.

1. Relevance

1.1. Data users

Not applicable.

1.1.1. User needs

The UOE Questionnaire is filled in by data collected and published by the Croatian Bureau of Statistics, which are available to users. Users often require/use data on education at all ISCED levels.

1.1.2. User satisfaction

The Croatian Bureau of Statistics always strives to meet all user needs. User requests are met in most cases.

1.2. Completeness

Data and metadata completeness is in line with Regulation (EC) No 452/2008 of the European Parliament and of the Council of 23 April 2008 concerning the production and development of statistics on education and lifelong learning.

1.2.1. Data completeness rate

Data completeness rate is 100%.

2. Accuracy and reliability

2.1. Sampling error

Not applicable.

2.1.1. Sampling error indicators

The indicator for this survey is not applicable.

2.1.2. Bias in sample selection process

The indicator for this survey is not applicable.

2.2. Non-sampling error

Not applicable.

2.2.1. Coverage error

Not applicable.

2.2.2. Over-coverage rate

The indicator for this survey is not applicable.

2.2.3. Measurement errors

Not applicable.

2.2.4. Non-response errors

Not applicable.

2.2.5. Unit non-response rate

The indicator for this survey is not applicable.

2.2.6. Item non-response rate

The indicator for this survey is not applicable.

2.2.7. Processing errors

Not applicable.

2.2.8. Imputation rate

The indicator for this survey is not applicable.

2.2.9. Editing rate

The indicator for this survey is not applicable.

2.2.10. Hit rate

The indicator for this survey is not applicable.

2.2.11. Model assumption error

Not applicable.

2.3. Data revision

2.3.1. Data revision – policy

The users of statistical data are informed about revisions on the website of the Croatian Bureau of Statistics www.dzs.hr. Data from the UOE data set will be modified accordingly and Eurostat will be informed.

2.3.2. Data revision – practice

Provisional data are not published in the survey; therefore, there are no data revisions.

2.3.3. Data revision – average size

The indicator for this survey is not applicable.

2.4. Seasonal adjustment

Not applicable.

3. Timeliness and punctuality

3.1. Timeliness

3.1.1. Time lag – first results

The indicator for this survey is not applicable.

3.1.2. Time lag – final results

The indicator for this survey is not applicable.

3.2. Punctuality

3.2.1. Punctuality – delivery and publication

The indicator for this survey is not applicable.

4. Accessibility and clarity

Not applicable.

4.1. News release

Not applicable.

4.2. Other publications

Not applicable.

4.3. Online database

Data are transmitted via Edamis web portal and are available in Eurostat databases.

4.4. Micro-data access

The conditions under which certain users can access microdata are regulated by the Ordinance on the Conditions and Manner of Using Confidential Statistical Data for Scientific Purposes.

4.5. Documentation on methodology

When completing the UOE Questionnaire, the Croatian Bureau of Statistics adheres to the methodological guidelines recommended by Eurostat. Methodological harmonisation has been established, and the Croatian Bureau of Statistics is making efforts to improve cooperation and meet the requirements set by Eurostat.

5. Comparability

5.1. Asymmetry for mirror flows statistics

Not applicable.

5.2. Comparability over time

5.2.1. Length of comparable time series

Length of comparable time series is 2.

5.2.2. Reasons for break in time series

There is no break in time series.

6. Coherence

6.1. Coherence – short-term and structural data

The indicator for this survey is not computed.

6.2. Coherence – national accounts

The indicator for this survey is not computed.

6.3. Coherence – administrative sources

The indicator for this survey is not computed.

7. Cost and burden

7.1. Cost

Not applicable.

7.2. Burden

It takes 30 working days to collect and submit the required data.
